OUR BRANDS

OUR MILESTONES

The background image shows a large-scale construction project in a dry, hilly landscape. In the foreground, a worker in a red shirt and black pants is walking away from the camera. To the right, another worker in a white shirt and red pants is standing, looking towards the camera. A green four-leaf clover icon is positioned above the letter 'I' in the word 'YEСТИ'. In the background, a large body of water, possibly a reservoir or lake, is visible between the construction site and a range of mountains under a clear sky.

OUR VISION & MISSION

With our growth-oriented and environmentally responsible management philosophy, Yesti Group's corporate vision is to lead in our core areas of activity (geosynthetic lining, construction and prefabricated structures) ensure customer satisfaction, undertake world-class projects and bring them to life through innovative solutions.

In line with our customers' requests and needs, Yesti Group's corporate mission is to closely follow developments in our core areas of activity (geosynthetic lining, construction and prefabricated structures) ensure the flow of information in parallel with these developments, and share this knowledge with our employees, subcontractors, suppliers and the public.

SUSTAINABILITY

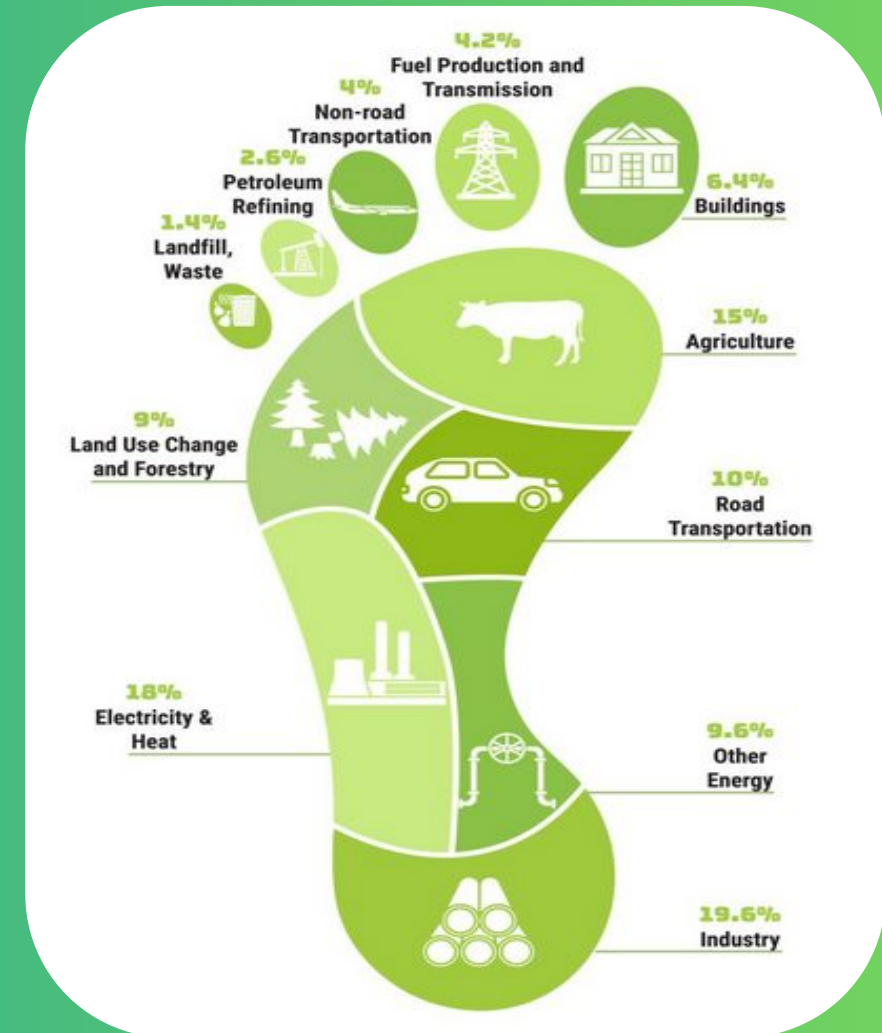

We Create Sustainable and Environmentally Friendly Solutions...

- ✚ Selecting Environmentally Friendly Products
- ✚ Supporting Environmentally Friendly Projects
- ✚ Implementing Energy Consumption Policies in Offices and on Sites
- ✚ Implementing Effective Recycling Plans in Offices and on Sites
- ✚ Reducing Water Consumption
- ✚ Using Reusable Cups, Bottles and Packaging in the Office
- ✚ Using Materials Correctly to Extend Their Service Life

LOW CARBON EMISSIONS

Since 1992, Yesti Group has supplied and installed 34 million m² of geosynthetic materials.

CC consists of a three-dimensional fibre matrix containing a specially formulated dry cementitious mix. A membrane backing ensures that CC is completely waterproof. CC can be hydrated by spraying or by fully immersing it in fresh or salt water.

Once set, the fibres reinforce the cementitious mix, preventing crack propagation and providing a safe plastic failure mode. As a result, CC offers a thin, durable, waterproof and lower-carbon alternative to conventional concrete.

OUR PROJECTS

OUR DOMESTIC PROJECTS

KIŞLADAĞ GOLD MINE

OWNER : ELDORADO GOLD
Tüprag Metal Madencilik San. Tic. A.Ş.

PROJECT : HLF (Heap Leach Facility) & Ponds

LOCATION : Kışladağ / UŞAK / TÜRKİYE

YEAR : 2005 – Ongoing

DESCRIPTION: LLDPE/HDPE Geomembrane, Corrugated and PE Piping, GCL, Conductive Geotextile, Geonet and Geocomposite Installation

EFEMÇUKURU GOLD MINE

OWNER : ELDORADO GOLD
Tüprag Metal Madencilik San. Tic. A.Ş.

PROJECT : TSF (Tailings Storage Facility)

LOCATION : Efemçukuru / İZMİR / TÜRKİYE

YEAR : 2010 – Ongoing

**DESCRIPTION: LLDPE/HDPE Geomembrane, GCL,
Geotextile and Drainage Geocomposite Installation**

ÇÖPLER GOLD MINE

OWNER : ALACER GOLD – SSR MINING

Anagold Madencilik San. ve Tic. A.Ş.

PROJECT : HLF (Heap Leach Facility) & Ponds

LOCATION : İliç / ERZİNCAN / TÜRKİYE

YEAR : 2011 – Ongoing

DESCRIPTION: Supply and Installation of Geomembrane, Drainage Geocomposite, Geosynthetic Clay Liner (GCL), Corrugated Pipe, Geonet and Geotextile

ÇÖPLER GOLD MINE

OWNER : ALACER GOLD – SSR MINING

Anagold Madencilik San. ve Tic. A.Ş.

PROJECT : TSF (Tailings Storage Facility), Ponds, Lining and Piping Works

LOCATION : İliç / ERZİNCAN / TÜRKİYE

YEAR : 2017 – Ongoing

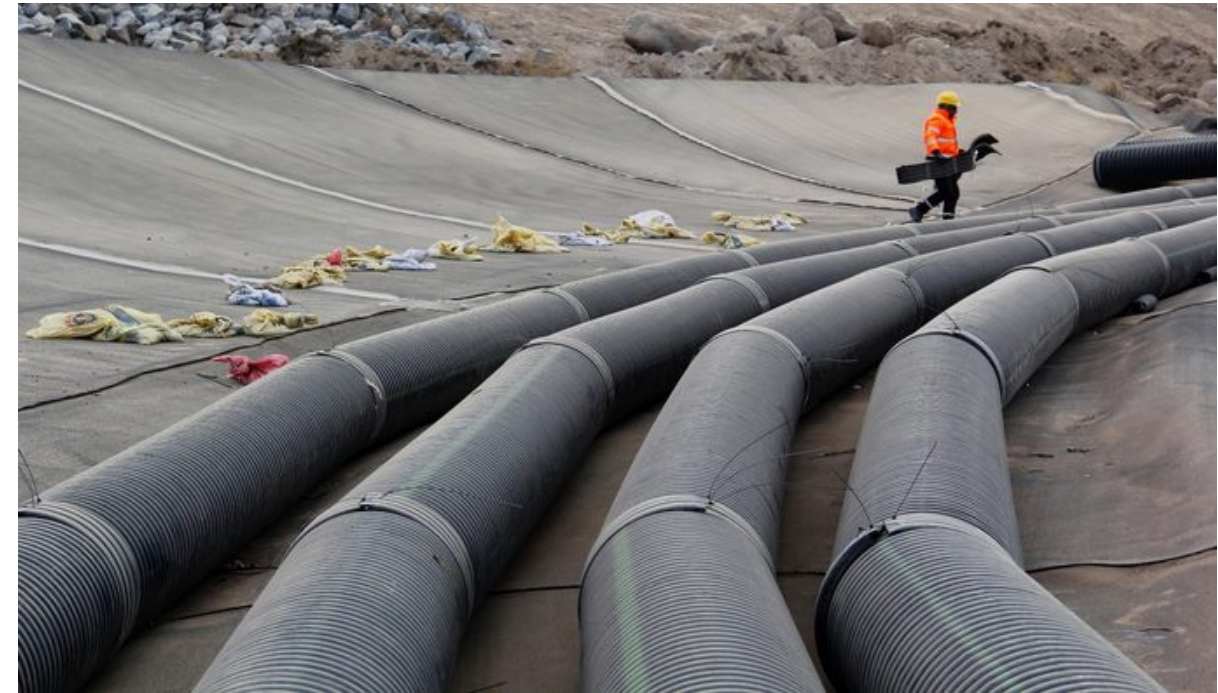

DESCRIPTION: Supply and Installation of Geomembrane, Geocomposite, GCL, HDPE and Corrugated Pipe, Geonet and Geotextile

ÖKSÜT GOLD MINE

OWNER : CENTERRA GOLD / Öksüt Madencilik San. ve Tic. A.Ş.
PROJECT : HLF (Heap Leach Facility) & Pond Lining Works
LOCATION : Develi / KAYSERİ / TÜRKİYE
YEAR : 2018 – Ongoing

DESCRIPTION: HDPE Geomembrane, Conductive Geotextile and Geonet Installation;
Corrugated and PE Piping Works

GÜMÜŞHANE COPPER MINE

OWNER : Yıldız Bakır Madencilik San. A.Ş.

PROJECT : TSF (Tailings Storage Facility)

LOCATION : GÜMÜŞHANE / TÜRKİYE

YEAR : 2022

DESCRIPTION: Geosynthetic Lining Materials

HYDROELECTRIC POWER PLANT CANAL LINING WORKS

OWNER : Baten Enerji

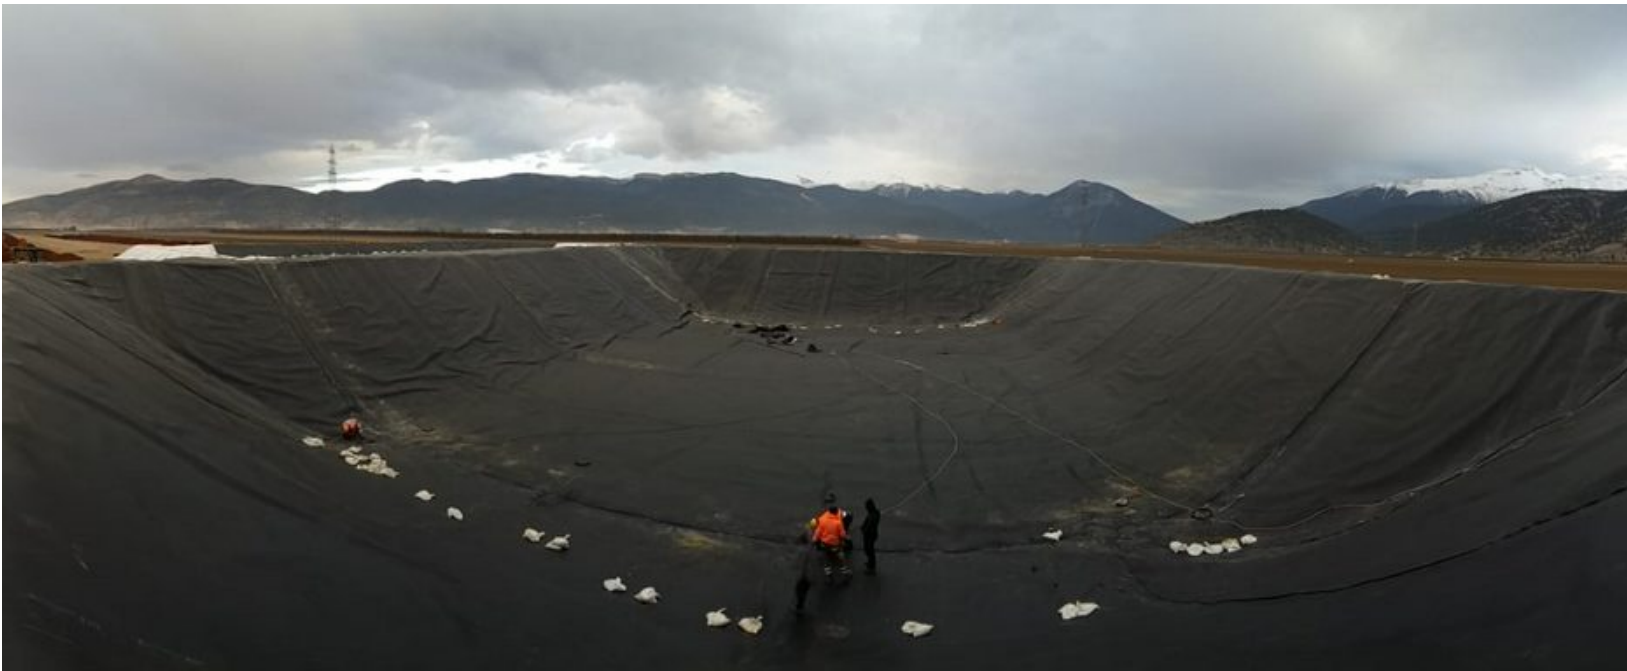

PROJECT : Canal Lining Works

LOCATION: NEVŞEHİR / TÜRKİYE

YEAR : 2012

DESCRIPTION: HDPE Geomembrane Installation

IRRIGATION POND

OWNER : Baharoğlu Seracılık Tarım San.
PROJECT : Pond Lining Works
LOCATION : Elmalı / ANTALYA / TÜRKİYE
YEAR : 2020

DESCRIPTION: HDPE Geomembrane and Geotextile Installation

A world map is centered on the slide, with continents in white and oceans in a light blue color. The map is slightly faded to serve as a background for the text.

INTERNATIONAL PROJECTS

ITY GOLD MINE

OWNER : Endeavour Mining Corporation

PROJECT : TSF (Tailings Storage Facility)

LOCATION : CÔTE D'IVOIRE / WEST AFRICA

YEAR : 2018 – Ongoing

DESCRIPTION: Draincoil and HDPE Geomembrane Installation

**ITY GOLD MINE
TSF 1 STAGE 5**

2023

An aerial photograph of a large tailings storage facility (TSF) at the ITY Gold Mine. The facility consists of several large, irregularly shaped ponds filled with a thick, light-brown slurry. The ponds are bordered by high, terraced earthen walls. The surrounding landscape is a mix of green forested hills and cleared, reddish-brown earth. In the bottom right corner, there is a small cluster of buildings and infrastructure. A green rectangular overlay is positioned in the top right corner of the image, containing white text.
